MyWeekend: Prototype (www.myweekend.us)
Vincent Ning (vcn8fn), Bharat Rao (bj5yr), Bilal Ali (bia7ac)

The following is the list of requirements for our high-fidelity prototype of MyWeekend:

1) Minimum of 10 interactive elements (at least 3 different kinds):
   - "Login" <u>button</u> (using Facebook login)
   - "MyWeekend" <u>image</u> logo at the top of the login page and home page
   - "Privacy Policy" <u>link</u>
   - "Terms of Use" <u>link</u>
   - "Update Your Times" <u>button</u> to set your availabilities for this weekend
   - "Weekend Availabilities" <u>buttons</u> (i.e. Morning, Afternoon, Evening, All Day)
   - "New Group" <u>button</u> to create a new group
   - "Create New Group" <u>form</u> with <u>textboxes</u> to add a group name and invite friends by inputting their phone numbers
   - "Group" <u>button</u> to view the group information
   - "Receive Text Messages" <u>button</u> to switch notification setting for that group
   - "Make Plans" <u>button</u> to select group availabilities and message other group members
   - "Set Personal Status" <u>expandable region</u> for a suggested activity in a group to select "Attending", "Maybe", "Not Attending"
   - "Leave Group" <u>button</u> to leave a particular group
   - "Add Friend" <u>image</u> in the group mode - once clicked, you can add more friends to the group after the group has been created
   - "Settings" <u>button</u>
   - "Logout" <u>button</u>
   - "Delete Account" <u>button</u>
   - "Feedback" <u>button</u>
   - "Feedback / Feature Request" <u>link</u> that directs to a Google form
   - "Bug Fix" <u>link</u> that directs to a Google form
2) Minimum of 5 different screens:
   - "Login" page
     - ❖ Action: login with Facebook – Use Case: 1
   - "Login Error" window
     - ❖ Action: login with Facebook – Use Case: 3
   - "Privacy Policy" page
   - "Terms of Use" page
   - "Home" page
   - "Update Your Times" page
   - Specific "Group" information window
     - ❖ Action: accept/decline invitations for a group – Use Case: 1

- "Make Plans" page, with "Plan" and "Discuss" screens to suggest an activity idea and/or chat with group members, respectively
  - ❖ Action: accept/decline invitations for a group – Use Case: 2
- "New Group" form window
- "Settings" window
- "Feedback" window
3) Visual representations of a monetization strategy:
- Suggested activity based on nearby location, and local business marketing (the activity suggestion shows up in a particular group that has their availabilities set for the coming weekend)
4) Short report (at least 3 pages)
- [Refer to the separate report as part of this submission]
  - ❖ [MyWeekend Scalability.pdf]

MyWeekend Video Tutorial Work Flow:

1) Login
   a. Privacy Policy
   b. Terms of Use
   c. Login
2) Home Page
3) Update Your Times
4) Set Availabilities
5) New Group
   a. Add Friend
6) View Existing Group
   a. Make Plans
   b. Discuss
   c. Set Suggested Event Availability (sponsored suggestion from local establishment → revenue generator)
   d. Feedback
   e. Settings
      i. Log Out

Source Code:

We have hosted the prototype on www.myweekend.us. Please visit the actual domain name (not local server) for full functionality of the prototype. The source code for the prototype is attached, but attempting Facebook login on a local server won't work necessarily because each Facebook app only permits one domain to use Facebook login, and we have designated www.myweekend.us to be that domain. Enjoy playing around with our high-fidelity prototype. We have been working hard on development and we hope to launch the full product soon. Cheers!
